

July 2011

My journey with Dr. Moyer began when I was experiencing a burning sensation in my arm and down into my fingertips. Dr. Moyer had been recommended by a relative and thinking I might have a pinched nerve in my neck, I called for an appointment. I've never been to a chiropractor before, but felt at ease with the activator adjustments. I do have deteriorated discs in my neck and arthritis in my hands and knees. The burning sensation cleared up quickly with Dr. Moyer. His treatment for carpal tunnel has helped immensely. I am very pleased and grateful for the help I have received from Dr. Moyer.
